## Air pillow and air bubble inflator machine and film system

- Ideal entry-level void fill machine.
- Ideal for small packages with smaller air bubble option.
- Two air fill sizes: Air pillow and air bubble.
- Inflates air pillows at 8 metres per minute.
- Fast warm up time: ready to use 10 seconds after switching on.
- Perfect for e-commerce small businesses.
- 100% recyclable.
- Patent sealing technology = no air or seal leakages.
- Lightweight film = economical.
- Space-saving compact design for smaller packing lines and workstations.

Applications include: cosmetics, bags, pharmaceuticals, glass, ceramics, lighting, electronic components, fruit and vegetables.
