Respond, Resolve, Rely, Reduce

The ideal solution for ecommerce and smaller packing operations

Are you looking for a compact and easy-to-use paper void fill dispenser for your smaller packing operations? Look no further than our bench mount Paperfil Paper Void Fill Dispenser.

This manually operated unit is perfect for smaller production operations and can be easily integrated into your current packing line. It is also portable, allowing you to move it to other sites as needed. The bench mount design makes this dispenser easy to set up and assemble, with adjustable height options to suit your specific needs. You can trust in the durability and reliability of this popular

device, found in many packing lines and distribution centres.

Designed specifically for 380mm wide Z-folded PaperFil packs, this paper dispenser offers a convenient and effective method of void fill packaging. It provides superior protection and cushioning for your goods during transit.

Not only is this dispenser practical, but it is also sustainable. The paper used in this dispenser is 100% recyclable which makes it an excellent choice for those looking for eco-friendly packaging options.
