

Motorised Honeycomb Paper Dispenser

Don't let manual wrapping slow you down. Upgrade to a quicker, greener solution with our Motorised Honeycomb Paper Wrap Dispenser and watch your customer satisfaction and trust grow with every impeccably wrapped package that leaves your facility. Designed with high-volume e-commerce and packing centres in mind, this smart and compact dispensing solution catapults packaging efficiency to the next level.

Key Features:

- Automated excellence.
- Hands-free operation.
- Dual roll capacity.
- Eco-friendly choice.
- Adjustable settings.

Benefits for Your Business:

- **Speed up production line:** time is money, and with our dispenser's fast output, you can wrap more items securely in less time.
- **Save on materials:** by setting the exact length needed, you will minimise waste, ensuring a more cost-effective and environmentally friendly packing process.
- **Save storage space:** save precious and valuable space - 1 roll of honeycomb paper is equivalent to 20 rolls of bubble wrap.
- **Enhanced product protection:** utilise the cushioning properties of honeycomb paper wrap to protect items from knocks and shocks during transit.
- **Improve aesthetics:** the added white tissue interleaf not only adds padding but also takes the unboxing experience up a notch for the end customer.
