

Product code: 91.371

Omni Paperfil™ Paper Pad Cushion Machine

The Omni Paperfil paper pad cushion machine is a compact and protective packaging machine. It can efficiently convert two layers of kraft paper to a 3D crimped shape with high density in a few seconds, feeding directly into the packing station.

Specifications	Result
Machine height	1180mm
Machine width	450mm
Machine length	750mm
Machine speed	12m/min
Power	120W
Voltage	220~230V or 100~120V
Shell material	Metal alloy
Paper application	380mm wide, fanfold paper
Net weight	54kg
Gross weight	67kg

Features:

- Easy to operate, just refer to the manual.
- Multimode function.
- Small size, modular design.
- Innovative paper pad extrusion fold structure.
- Warranty period: 24 months.
- Multiple proprietary patented products.
- Certificate: CE.
