

Omni 310

Carton Sealing Machine

Side Drive Belt

This semi-automatic carton sealer uses a side drive belt which makes this machine ideal for use when the carton is too full (deformed) – or when the case has extreme dimensions – short narrow or very high.

Size adjustments are made manually. The machine simultaneously seals both the top and bottom flaps of cartons. It has a tape head of 50mm and a belt speed of 23 meters/minute.

Features

- Fast & efficient
- Sturdy steel construction
- Industrial wheels for easy mobility
- Easy to use control panel
- Service friendly machine, easy access to all moving parts
